Wood-house. 1666.

A Prognostication for the year of our Lord God, 1666.

Being the second from *Bissextile* or Leap-Year, and from the Worlds Creation, 5629.

Wherein is contained a brief description of the four Quarters of the Year; excellent Notes of Husbandry and Gardning, for every month in the Year.

With the Names of all the Principal Fayrs, And a Description of the High-Ways in *England* and *Wales*.

BY

JOHN WOOD-HOUSE,

Philomath.

LONDON,
Printed by *J. Macock* for the Company of Stationers, 1666.

When you would plant or graft, consider where the wind bloweth; if it be in the South, it is very good for that purpose, but if it be in the North or East, it is not good.

It is good to plant or graft generally, the Moon increasing in these signs Taurus or Aquarius, in the beginning of the Spring, or latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus, Leo or Aquarius.

Cut timber to have it sound, in December or January, in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the mols in the month of January.

Plash hedges and lop trees for fuel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-sets, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio: and in these months, September, November, February.

Set vines in February, March, or September, specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon, the weather being fair and dry.

Cut [illegible]Hay presently after the full of the Moon.

Dung ground to prevent the growing of weeds, the Moon decreasing.

Sow Carret-seeds about the end of February, or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, at the wane of the Moon.

Sow Cucumbers and Melons in February, March, or June, in a hot and a fair day.

Excellent Notes of Husbandry and Gardning, for every Month in the Year.

IN *January* cut down Timber (and it ſhall not chink nor be eaten with worms) in the laſt quarter of the Moon ſet or ſow Kernels and Berries of Bay-trees, Privet, and Box. Set Quick-ſets, Roſe-trees, Poſches, Filberds and Plum-trees; and remove trees if the froſt be not too hard, prune and lop them before full Moon: ſowe or ſet Beans and Peaſe, and dung land in the laſt quarter: geld Cattel to rear, fallow land for Wheat and Rye: French Gardens with dung, and remove Bees, and for your own health, keep your body warm, let good and wholſom diet be your Phyſitian, moderate exerciſe and labour your ſawce to cauſe appetite.

February.

NOw ſow all ſorts of Peaſe and Beans, and other Pulſe, ſow Muſtard-ſeed, caſt up ditches, ſet and plant Vines, Hops, Gooſeberries, and any fruit that grows upon buſhes, prune and trim all ſorts of fruit-trees from moſs, canker, and all ſuperfluous branches. Graft in the latter end of the month, ſow Onyons in cold ſtiff land: Take heed of cold, forbear flegmatick meats.

March.

IN the new of the Moon (the wind any but Weſt or South) graft Pear, Warden, or Apple-trees, make an end of ſowing all manner of Pulſe, and begin to ſowe Oats, Barley, Parſenips, Onyons, Carrets, Cucumbers, Melons, and all kind of Pot-Herbs, ſlip Artichokes and Sage, geld Lambs, let blood according to ſtrength and neceſſity, the ſign and weather alſo being fit (but take advice of the learned Phyſitian) look what diſeaſe cannot be cured in the Spring-time by phyſick, will hardly be cured all the year after.

April.

SOwe Barley, Hemp and Flax, Pole Hops, ſet and ſow all kind of Garden-herbs, open Hives, and let Bees

Bees labour for their living, let Tanners now provide them for Bark, and all good Housewifes look to their Dairies; bleed and purge with advice: those that are troubled with aches, or the gout, let them go to the Baths in this or either of the months.

May.

SOw Barley on all light sands and bearing grounds, and likewise Hemp and Flax, and all manner of fine seeds and herbs, take Lambs from their dams, stir land for Wheat and Rye, leave lopping of Trees, teach Hops to climb, but cut off the superfluous branches, Rise early, walk the fields, especially by running streams; Sage and sweet Butter is now an excellent breakfast, Sage and clarified Whey, as also Scurvy-grasse-Ale, and Wormwood Beer, are wholsom drinks to be drunk fasting.

June.

SHear sheep, bring home fuel, weed Corn and Gardens, set Rosemary, Carnations, and Gillyflowers, sow Lettuce and Radish-seed three or four days after the full, for then they will not run to seed: make hay, carry Sand, Lime, Marl, and Manure, of what kind soever befitting your land: cut neither hedge nor Tree in this and the two next months: beware of great thirst, use thin and light Diet, moderate exercise, and chast thoughts.

July.

APply making and getting in of hay, Pull hemp that is ripe, gather Garden Beans, get Rue, and Wormwood, and Gaul to strew on your floors, to destroy Moths and Fleas, fence your Copses, use moderate diet, take heed of great thirst, for nothing bringeth the Pestilence or pestilent diseases sooner then extream thirst, and fervent heats & cold taken also suddenly upon them: Take no physick, [illegible] not but upon all violent occasions.

Labour in Summer, take pains with the Ant,
Else in the Winter live poor, and in want.

August.

FOllow close your Corn-harvest, sow Winter herbs in the new of the Moon, gather Garden-seeds, mowe Barley and Oats, gather Summer Fruits, refrain from

sleeping in the day time after meat, avoid riot and excess.

September.

IN the beginning of this moneth, and end of the former, gather Hops when they wax brown, the weather being fair, and no dew on the ground; kill Bees, make Verjuice, sow Wheat and Rye, remove and set all slips of flowers between the two Lady days, put Swine to Mast, remove Trees every new Moon, from *September* until *February*, especially in the new of the Moon, the weather fair and warm, the wind South or West: use Physick moderately, forbear fruits too pleasant, or rotten, shun riot, and excess of diet.

October.

SOw Wheat and Rye, the sooner the better, for fear of rain, set Acorns and Nuts, gather Winter-fruit, the weather dry, in the afternoon, and in the wane of the Moon. Cut Rose-trees, if you desire to have store of Roses, do this once in two years: refuse not any needful Physick at the hands of the learned, and use all moderate sports to revive the vital spirits to the service of God only.

November.

MAke Maulr, kill Hogs, trench Gardens with dung, set Crab-tree-stocks: sow Wheat and Rye in exceeding hot sandy grounds, cut down Timber for Ploughs, Carts, and other implements for husbandry, use wholsome meat and drink, with good exercise to preserve health.

December.

IN this and the next moneth, cut down Timber in the last quarter of the Moon, uncover the roots of fruit-trees, set Beans and Pease, cover all your best flowers and herbs from frosts and storms, with old rotten horse-dung: look well to your cattel, water and keep moist your medows, let horses blood, & to conclude, drink good Wine and strong drink, keep thy body warm clad, thy house warm and dry, banish all cares from thy heart, and feast thy poor neighbours, rejoycing that God sent his only begotten Son about this time into the world, to save all such as lay hold on him with a true and lively faith.

Neque is qui plantat, neque is qui rigat,
Sed Deus qui dat Incrementum.
